JILL MISENER:

EIS001545

1 My name is Jill Misener and I'm the Ashtabula City Counsel President. I just learned about this meeting from a citizen in Jefferson, Ohio. I do not have a prepared statement as such. But I guess, maybe, because I missed the whole first hour of questions. And I really appreciate the statement given from the City of Cleveland by Mayor White's representative. [But I guess a question that I have is that we have been transporting nuclear waste up to now? Correct? And we are still having hearings, yet we are still doing this. And to me, having these hearings, although they are probably beneficial in some respects, if you're doing it already, I think we are in harm's way.

I guess I would feel that the idea of having hearings and input from the citizens should be -- should come before any transportation of any nuclear waste occurs. I think we're sort of putting the cart before the horse. I don't really have anything other to say than that.]
